CHAPTER 1 — GENERAL INFORMATION

100 Introduction

The Income Continuation Insurance (ICI) program is authorized by Wis. Stat. §§ 40.61 and 40.62, and is administered according to the plan provisions between the Group Insurance Board and the program’s third party administrator. The ICI plan provides replacement income during periods of short-term disability as well as those lasting for extended periods. The ICI plan is self-insured—financed by employer and employee premium contributions—and is available to all State employees participating in the Wisconsin Retirement System (WRS). Employees’ eligibility for ICI participation requires, with some exceptions, the completion of six months of service under the WRS. Premiums are deposited in an employee trust fund rather than paid to an insurance company. The third party administrator is retained to perform the administrative services associated with processing, paying and managing program benefits.

101 Program Features

The ICI premium is computed as a percentage of WRS covered earnings. For most State employees the State will contribute a portion or pay the total premium for those employees who accumulate sufficient sick leave. Because the percentage of premium contributed by the State increases according to the amount of sick leave accumulated, prudent use of sick leave generally will mean lower premiums for State employees. University of Wisconsin faculty who have one year of State creditable service receive 100% State paid premium contribution based on election of a 180-calendar day elimination period. Faculty desiring a shorter elimination period are required to pay the necessary additional premium. The employee pays the full premium for supplemental ICI coverage; there is no State share. The percentage of premium paid by the State as a fringe benefit determines the taxable percentage of benefits received.
Benefits of standard ICI coverage are based on 75% of an insured employee's gross basic earnings, up to a benefit maximum of $4,000 per month (75% of $64,000 in annual earnings). In addition, employees with annual earnings exceeding $64,000 may elect supplemental ICI coverage, which provides for a benefit on up to $120,000 of the earnings for a maximum benefit of $7,500 per month (75% of $120,000 in annual earnings). Disabilities of more than one-year's duration have a supplement of $75 per month added to the normal benefit amount. This is a one-time supplement; no further increases will apply.

In the event of a physical or mental disability, the ICI plan provides up to 75% of the employee's gross basic earnings. Although the maximum amount available under the program is 75%, the sources of payment may vary according to the employee's eligibility for benefits from the WRS, Social Security Administration or employer-sponsored programs. Benefits under the program will not duplicate benefits available from programs such as WRS retirement (regular or disability retirement and lump sum payments), Long Term Disability Insurance (LTDI), Social Security, Worker's Compensation, Unemployment Compensation, Federal retirement programs, etc. Rather, benefits under the ICI program supplement the other programs to provide a specified level of disability income. (Refer to subchapter 708 for more information on offsets.)

ICI benefits are paid monthly with checks dated the first of the month for the preceding month's benefit period. For example, benefits for January's benefit period are paid February 1. Generally, benefit payments begin after serving the elimination period or exhausting the sick leave credits, whichever is later, and continue for the length of the disability if all ICI plan requirements are met. Benefit payments normally cease at age 65.
